Portfolio - <https://techie-portfolio.vercel.app/>

A passionate Software Engineer specializing in the development of accessible technologies to promote empathy and understanding. Adept at collaborating with diverse teams to incorporate different viewpoints and ensure technological solutions meet the needs of all users.

EDUCATION

Bachelor of Science (B.S.) - Information Technology

Jan 2025

University of Science and Technology, Omdurman

GPA: 3.87/4.0

High School Diploma

2018

King Fahad Secondary School, Omdurman

EXPERIENCE

IT Operations and Collections Lead

Aug 2024 - Present

Qemma Collection Company, Jeddah

Lead and manage IT operations, ensuring smooth functionality of systems and applications while optimizing technical support for efficiency. Oversee collection processes, balancing customer relations with effective debt recovery. Collaborate across departments to streamline workflows, manage reporting, and provide analytical insights to support strategic decision-making.

Computer and Mobile Software Troubleshooter

Sep 2023 - Jul 2024

Al-Safeer Telecommunication, Jeddah

Diagnosed and resolved software issues on both computers and mobile devices. Provided timely support to users experiencing software-related problems, ensuring minimal downtime. Assisted users with software-related issues.

Data Capturer - NEOM (Remote)

Mar 2024 - Jul 2024

Isazi, South Africa

Data Capturer with Isazi AI, working on the NEOM project "The Land of Future". Successfully maintained high accuracy in data entry and labelling, ensuring data integrity for AI projects. Played a pivotal role in supporting the development and implementation of AI-driven solutions for NEOM's innovative projects.

Software Engineer Intern

Jan 2024 - Feb 2024

WAJ Company, Dubai

One of the main things that I did was building the landing page of WAJ website (waj.ai). I have also built the HTML Email Templates. We have been working on Jira, Figma, Supabase, Google Cloud Platform, Slack and GitHub.

Supervisor of Debt Collection (Telecom Sector - Mobily)

May 2023 - Aug 2023

Albadr International Company, Cairo

My presence in the company has significantly improved its productivity, given my character in its various departments, beginning with the Information Technology Section, then the

Operations Section, the Accounts Section and in addition to human resources. I have been able to harness my expertise in information technology to achieve the goals of the company, increase productivity and offer solutions.
